B. An angler can win more than one prize.

C. There will be no ties. In the event of equal weight, the fish weighed in first wins.

D. All fish must be weighed in by the termination of the tournament, except in the event the weigh-in dock is full. In that case, the Weigh Station Official can allow a representative from the boat to report a fish for weigh-in if the official **is notified before the weigh-in deadline**. The angler must notify the Weigh Station Official by radio at a visual distance from the weigh in dock, for verification. **This only applies when the boat is prevented from reaching the weigh-in dock because the dock is full. (Please refer back to rule #2 for Dana weigh in times)**

Optional side jackpots are 'winner takes all' style. The side pot purses will be awarded to the first weigh in with the heaviest weight for each division. Side jackpots are entered into by boat, not individual angler. Jackpots will have a 90% payout. Three fish are not required for the tuna and yellowtail side pots. If no triple is caught for each category, the winner will be decided by the heaviest of two species. If one single fish weighs more than a combined 3 fish, the single fish will win the category's side pot (for example, a 200 lb. tuna weighing heavier than 3 combined tunas."

8. In the event that no qualifying fish are weighed in for any or all side pots, 90% of that jackpot's fees will be returned to each participating vessel.
